

ST-UP™

The Soft Brushing Kit

Designed by Dr Joseph Choukroun

Extend the flap without periosteal incision...

...up to 3 cm!

No incision

No bleeding

No stress

No pain

No inflammation

No risk

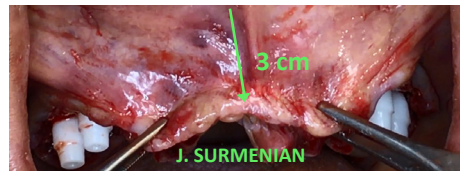

Dr. Joseph CHOUKROUN

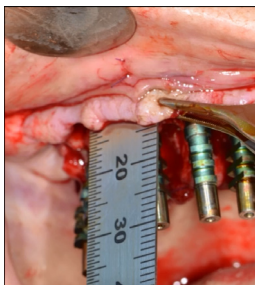

The concept of the « Soft Brushing » is to disorganize the collagen fibers of the fibrous periosteum: the stiffness is reduced and the flap release increases just by using the brushes.
